

India First Training Programs

JW MARRIOTT
Mumbai

VTa's financial training programs originate from the consulting work the firm carries out for institutions such as the World Bank, the International Finance Corporation, Franklin Templeton Investments, Ministry of Finance (Government of Indonesia), and USAID. These programs are currently offered in international locations: Johannesburg, Washington, Amsterdam, Singapore, Buenos Aires and Lagos. All programs are of 4 days duration, hands-on, rigorous, intellectually challenging, require a laptop (Excel 2003) and are conducted by Viswanath Tumu, Principal Consultant, Vish Tumu Associates. These premium, cutting-edge training programs have no peers and are internationally acclaimed.

Developing Consumer Finance Products May 13-16

Intense competition requires institutions to develop market-driven, user-friendly, financial and savings products. Fundamental DCF concepts and a world-class product-creation software are discussed.

Advanced Financial Modeling with Excel VBA May 20-23

VTa's best-selling program is THE program for Financial Modeling, offering in-depth exposure to advanced features of Excel, its programming environment (VBA) and to real-life models.

DCF & Financial Mathematics May 27-30

Provides an intensive and hands-on exposure to the Discounted Cash Flow Framework and Financial Mathematics using specialized worksheets, exercises and several DCF case studies.

The Risk-Return Framework for Financial Institutions June 3-6

Exposes participants to the analytical framework for transitioning a financial institution from a 'flat' to a 'risk' based pricing system to enable an institution to earn its 'target' rate of return, even with 'defaults'.
